

Can I recognise right angles in shapes? (Y3)

Reasoning and problem solving

This page does not need to be printed. Write the short date and the above question in your maths book, underlining them neatly with a ruler.

- 1) Draw a line along the dots to make a right-angle with each of these lines:

- 2) **True or False?**

This shape has two right-angles.

Explain your answer.

- 3) How many right angles can you see in this image?

Can you create your own image with the same number of right angles?

Answers are on the next page.

Right Angles in Shapes

Reasoning and Problem Solving

Draw a line along the dots to make a right-angle with each of these lines:

For example (see red lines):

True or False?

This shape has two right-angles.

Explain your answer.

False.

Children could show this by using the corner of a page to show there aren't any right angles.

How many right angles can you see in this image?

Can you create your own image with the same number of right angles?

There are 34 right angles.
